LETTER OF THE AMG GRAPHITE CEO REGARDING COVID-19

UPDATE ON GRAPHIT KROPFMUEHL´S GLOBAL OPERATIONS

Dear valued Customers and Business Partners,

we are highly committed to the safety of our employees, suppliers and customers. Due to the further spreading of the Corona virus, we would like to keep you updated on the status of our production plants. Information given has been collected on March 18th, 2020. This page will be updated in case of new events.

- Sri Lankan operations: Authorities declared this week as public holiday for government employees. We idled the mine but keep the processing plant running. We expect no delays in shipments.
- China operations: Plant went back into operation on February 10th 2020 after the extended Chinese New Year holidays. We have not experienced any delays in serving our customers until now.
- Mozambiquean operation: Mine and plant are fully operational. No restrictions.
- European sites: Operating under normal working hours, including the mine.
- Measurements to reduce the risk of our people have been put in place at all sites globally. As people now work in shifts and some from home, you might experience a slight delay in response. Please be assured that we will take care of your matter and come back to you as soon as possible.
- Non-critical visits by our suppliers to any of our offices will not be received. We hope for your understanding as this is to keep everyone safe. In case of questions you can reach us under our regular contact details globally.

Stay healthy and safe,

Thomas Junker
- Managing Director / CEO Graphite -
